

Scientific Committee :

Dr Patricia **SIMON-ASSMANN** – Inserm U1109 – 3 av. Molière – 67200 Strasbourg
(contact person)

Dr Philippe **LAVALLE** – Inserm U1121 – 11 rue Humann – 67000 Strasbourg

Pr Maxime **LEHMANN** – UMR 7213 CNRS – Fac Pharm – 74 route du Rhin – 67401 Illkirch

Dr Gertraud **OREND** – Inserm U1109 – 3 av. Molière – 67200 Strasbourg

Dr Marie-Christine **RIO** – Inserm U964 IGBMC – 1 Rue Laurent Friess – 67404 Illkirch

Pr Youssef **HAIKEL** – Inserm U1121 – Faculté de Chirurgie Dentaire – 67000 Strasbourg

Secrétariat : Isabelle Gillot – tél. 03 88 27 77 27 – e-mail :

SCIENTIFIC PROGRAM

Thursday March 21, 2013

- 13 h 15 Registration
- 14 h 00 Official opening of the Meeting : by the President of the French Society of Extracellular Matrix Biology, by the Dean of the Dental Faculty and by the local organizer
- 14 h 15 **SESSION 1**
Title : Structural and regulatory role of ECM
Invited speaker : Taina PIHLAJANIEMI (Oulu, Finland)
Contributions of multiplexin collagens to development and maintenance of tissue homeostasis
- 14 h 55 3 short communications selected from the abstracts
- 15 h 40 Poster snap shot – Moderator : **Sylvie RICARD-BLUM (Lyon, France)** –
- 16 h 20 Poster session
Including coffee break
- 17 h 00 **Special lecture : Richard HYNES (Cambridge – USA)**
ECM and adhesion receptors in cancer
- 18 h 00 CAVE HISTORIQUE DES HOSPICES CIVILS DE STRASBOURG / APERITIF

Friday March 22, 2013

- 9 h 00 **SESSION 2**
Title : ECM remodeling in tissue homeostasis and disease
4 short communications selected from the abstracts
- 10 h 00 Coffee break
- 10 h 30 **Invited speaker : Anna-Karin OLSSON** (Uppsala, Sweden)
Alternatively spliced matrix molecules as targets for cancer vaccines
- 11 h 10 Poster snap shot – Moderator : **Sylvie RICARD-BLUM** (Lyon, France) –
- 11 h 50 Poster session
- 12 h 30 Lunch
- 13 h 30 **Invited speaker : Lydia SOROKIN** (Münster, Germany)
The role of endothelial laminins in immune cell migration into inflamed tissues
- 14 h 10 **SESSION 3**
Title : Role of the ECM in the tumor microenvironment
4 short communications selected from the abstracts
- 15 h 10 Coffee break
- 15 h 40 **Invited speaker : Olivier DE WEVER** (Gent, Belgium)
Bone marrow-derived mesenchymal stem cells in colorectal cancer: NRG at the invasion front
- 16 h 20 3 short communications selected from the abstracts
- 17 h 05 Meeting of the SFBMEc members
- 18 h 30 Walking tour
- 20 h 30 Altogether dinner

Saturday March 23, 2013

- 9 h 00 **SESSION 4**
Title : Impact of the ECM on mechanotransduction and signalling ; biomaterials
- Invited speaker : Benoit LADOUX** (Paris, France)
Forces, rigidity sensing and large-scale mechanosensing during single cell migration
- 9 h 40 2 short communications selected from the abstracts
- 10 h 10 Coffee break
- 10 h 40 **Invited speaker : Jacky GOETZ** (Strasbourg, France)
Biomechanical tuning of tumor invasion and metastasis
- 11 h 20 2 short communications selected from the abstracts
- 11 h 50 Prizes (short communications and posters)
- 12 h 00 CONCLUSION
